

Poly Ramp
SKU# 5039-BK

The ribbed, non-skid surface of this ramp allow for additional traction when loading drums with a hand truck. The 10 degree slope is easy to maneuver and the polyethylene construction won't rust or corrode. It has a strong 1,000 lb. handling capacity and is compatible with a variety of ENPAC products, including:

- 5102-YE
- 4062-YE (with ramp extender)
- 4064-YE
- 5253-YE (with ramp extender)
- 5001-YE (with ramp extender)
