

**Poly-Overpack 110 Salvage Drum**  
**SKU# 1040-YE**

This salvage drum is the only plastic, screw-top model of its size on the market. It was designed to hold misshapen or bulging 55-gallon drums, providing extra room with the same DOT rating as a 95-gallon salvage drum.

Previously known as the 1240-YE, this re-designed and upgraded unit now includes double start threads which only require a half turn to tightly secure your leaking drums.

US Patent No. 9,592,927; Canada Patent No. 2699046

Technical Data		
	U.S.	Metric
<b>Top Diameter</b>	31.5"	80 cm
